Checklist – Removal of Native Vegetation

An application for the removal of native vegetation should be accompanied by the following information:

Site Plan Site Plan The location of vegetation on the lot; The location of vegetation to be removed, including the location of any patches and the number of large trees within the patch proposed to be removed; Location of scattered trees proposed to be removed, including their size; The location of any buildings on the land; Topographic information, including ridges, crests and hilltops, wetlands and waterways, slopes of more than 20%, drainage lines etc. Any application requirements specified by the zone or overlay The planning controls which apply to the land can be obtained and viewed at the following link hittp://plannings.schemes.delwp.vic.gov.au/schemes/surfcoast A written description of the vegetation to be removed, including: The planning controls which apply to the land can be obtained and viewed at the following link hittp://plannings.schemes.delwp.vic.gov.au/schemes/surfcoast A written description of the vegetation to be removed, including: The reason for the removal of the vegetation; Vegetation height and trunk diameter at breast height (dbh); The reason for the removal of the vegetation; A response to Guidelines for the Removal, Destruction or Lopping of Native Vegetation 2017, including the assessment pathway and the reason for the assessment pathway. This includes the location category of the native vegetation to be removed. A description of the native vegetation to be removed. A description of the native vegetation to be removed that includes: Written submission Written submission Written submission The extent (in hectares); The extent (in hectares); The extent (in hectares); The extend (in lectares); The extend (in lectares); The extend (in lectares); The extend (in lectares); The condition score; The condition score; The condition score; If it includes endangered Ecological Vegetation Classes; If it includes endangered Ecological Vegetation is approved to be removed. An avoid and minimise statement. Where the removal of native vegetation is to create defendab	A current copy of Title and details of any registered restrictive covenant or Section 173 Agreement	A Copy of Title and associated restrictions can be accessed www.landata.vic.gov.au. The Title must be no older than 60 days old The plan should be drawn to a scale of 1:100 or 1:200 and show: • The boundaries and dimensions of the site;
