

Tips on managing your kerbside bins

1. Bins should not be placed on the kerbside more than 24 hours before the scheduled collection day. Empty bins should be brought in within 48 hours after the collection. Under Council's Local Law, penalties may apply.
2. Do not overfill bins. Overfull bins attract wildlife, such as cockatoos that scavenge and create litter. Residents are responsible for picking up litter created from overfull bins where lids are not closed.
3. Bags of household waste sitting next to bins will not be picked up. If it doesn't fit in the bin, wait until the next collection or take it to your closest transfer station or waste drop-off site.

Find your local transfer station at surfcoast.vic.gov.au/transfer
4. Fees will apply for some waste taken to the transfer station, but up to 0.5m³ (about a car boot load) of sorted household recycling and glass bottles and jars is accepted free of charge.
5. Never put batteries, e-waste, liquids, hot ashes or chemicals in any kerbside bins. Check surfcoast.vic.gov.au/otherwaste for other recycling and disposal options.

And remember, **ALL** food and garden waste from your household goes in your FOGO (Food Organics and Garden Organics) bin.

Never miss bin night again!

Download SCRRApp

- Get reminders about bin night
- View and download your collection calendar
- Search the A-Z waste and recycling guide
- Report a missed collection, or a lost or broken bin
- Receive notifications about service changes, like a truck breakdown, code red fire days or an extra collection

AVAILABLE TO DOWNLOAD FREE

Recycling your old bin calendar

Calendar: recycling bin (remove magnet first as it is not recyclable)

Magnet: landfill bin or glue to your new calendar

Calendar with magnet attached: landfill bin.

Opt in to receive a calendar in 2023

You must opt-in to receive a printed bin calendar in October 2023.
