

# Request for Secondary Consent

Office Use Only			
Receipt Code		Receipt Number	
Date received			

An application may be made using this form to amend an approved use and/or development where the planning permit conditions allow changes to be made with the written approval of the responsible authority. An example of this type of condition is:

**The development as shown on the endorsed plans must not be altered without the written consent of the responsible authority.**

Council, as responsible authority, is likely to use secondary consent powers, where they exist, to approve minor amendments to plans where Council considers the changes will be unlikely to cause detriment to other properties or affect the interests of a referral authority. Council cannot consider a change under Secondary Consent that may alter what the planning permit allows or any conditions contained within the permit.

If you wish to amend what the permit allows or the conditions of the permit or make changes, including changes to plans, which may cause detriment to other properties or affect the interests of a referral authority, please make an application to Amend a Planning Permit under Section 72 of the Planning & Environment Act 1987.

Please make sure that all proposed changes are identified, including marking all changes to plans through highlighters, cloud bubbles or notations. Plans should also include revision identifiers (ie Revision C, 1 June 2011). Failure to do so is likely to result in delays.

Questions marked with an asterisk (\*) are mandatory and must be completed.
