Take the online survey by 28 February, 2021 at
www.surfcoast.vic.gov.au/peopleplacefuture

We are currently seeking community views. You can fill in a survey or send us an image that describes your ideas.

Background information is available to help set the scene.

The questions you answer will contribute to the Community Vision and Council Plan. Council will also use the feedback we hear as we prepare other important strategic documents this year. This includes the 10-year Financial Plan and 10-year Asset Management Plan. Our Municipal Health and Wellbeing Plan will be embedded into the Council Plan.

People's Panel

Once the survey has closed we will invite a panel of community members to review the comments people have provided. This panel will be comprised exclusively of citizens from our community – neither Councillors nor Council officers will sit on the panel. The panel members will be randomly selected from a larger group of people who express an interest in taking part.

We are excited to provide this deeper level of community engagement on this important project.

People Place Future

www.surfcoast.vic.gov.au

There's no doubt 2020 has given us a unique perspective on what is important and what might be possible

Almost certainly health and wellbeing, environmental sustainability and financial recovery will be on people's minds. Our culture and heritage is also an urgent topic for these times.

Council must also contend with an increasingly challenging financial picture.

How can we best recognise and learn from The Traditional Owners?

Your insights will help create a Community Vision for Surf Coast Shire that will guide us all for the next 10 years. The vision will be the statement that captures our community's collective aspirations for our shire.

At the same time we will be developing a Council Plan. This will be the guiding document for the four year term of our new Council. The Council Plan will effectively determine the priorities for Council.

Think of the Community Vision as everyone's shared aspiration for our shire. Think of the Council Plan as the Council's blueprint on how to support that shared aspiration.

We are calling it:
People, Place, Future.

What does the **future** look like for Surf Coast Shire?

What must we **protect**?

What must we **build**?

Who should we be **thinking** about?

What should we do **differently**?

Surf Coast Shire Council is inviting you to share your insights into what's important for our collective future. It's time to think big picture.

Likewise, what is our region's role at a state and national level?
